39 Whitfield Street

In November 2022 Cybersalon used AltSpaceVR and Zoom to augment event attendance to launch a book of short speculative future fiction stories in a book called "22 Ideas about the Future". 39 Whitfield Street in AltSpace is a faithful reconstruction of Cybersalons first bricks and mortar Cyber Cafe "Cyberia" which opened at 39 Whitfield Street in Central London in 1994. The intention was always to make 39 Whitfield Street a multi-presence metaverse experience. Here we are in Spatial.
